- 1. The above apply for stern-to berthing. In the case of side berthing, the above duties are doubled.*
- 2. A month is considered to be each calendar month.*
- 3. The above docking requires the signing of a relevant agreement.*
- 4. OLPA S.A. can provide docking for crafts under 15.00m in length when the particularities of the craft [e.g. draft of the vessel, difficulty in manoeuvring, etc.] are such that render its docking at adjacent marinas or ports difficult. The charges for such craft will take place in proportion to those set out in Table 3.*
- 5. In the case of docking of catamaran-type craft, the price-list of Table 3 shall apply with a 60% surcharge.*
- 6. Length is considered to be the total length listed in the nationality document of the craft. Where length is listed in feet, the figure is converted into metres.*

7. *Prices are subject to VAT, which currently stands at 23% and will be readjusted in accordance with the legislation in force.*
8. *The use of the water and power supply facilities is charged extra.*

More specifically:

- i) For water supply, the value comes to four euros (4€) per cubic metre plus VAT, while...
- ii) For power supply, the cost comes to 0.40€ / kWh.

The above apply for both short-term and long-term docking of craft.

9. *A docked craft with a transport capability of at least 12 passengers is obligated to pay the waste duty and to dispose of its waste (both liquid and solid) in accordance with the Waste Collection & Management Plan of OLPA S.A.*
